

# Statistical Computing Course: An Introduction to SPSS

## *Course information and registration form*

A one day statistical computing course will be held for University of Wollongong students and staff.

**Target audience:** intended for those postgraduate students/staff who have previously completed an introductory statistics subject and are planning to use this package. SPSS's operation on a Mac is almost identical to PC, and Mac users should have no transitional difficulties.

**Time:** Wednesday 11<sup>th</sup> October from 10:00am to 3:30pm with a 45 minute break for lunch (lunch is not provided)

**Venue:** 17-109

**Cost:** A charge of \$99 (or \$90 if paid by your Department) per person will be made for students currently enrolled in a research degree at the Uni of Wollongong and salaried staff of the Uni of Wollongong

---

The course includes:

- defining variables
- graphical techniques
- saving data and output
- importing data
- computing new variables
- hypothesis testing: t-tests, proportions, two-way tables
- correlation
- linear regression.

Please be aware that this course teaches statistical computing, not statistics. If you have not previously completed an introductory statistics subject you should consider doing the course "How to analyse data" which is held in the mid-year break each year. You should know how to use a PC or a Mac computer.

To enrol in this course please complete the enrolment form below and send, email, or give it to Lisa Pyle [eis-research@uow.edu.au](mailto:eis-research@uow.edu.au), by Monday 2<sup>nd</sup> October. Enrolments will be taken strictly in order of receipt. The course will not run if there are insufficient enrolments.

### **Instructor**

This course will be given by A/Prof Marijka Batterham, National Institute of Applied Statistics Research Australia. Course notes will be provided. Please bring along a thumb drive for saving work.

If you have any questions about the course please email: [marijka@uow.edu.au](mailto:marijka@uow.edu.au)

# Registration Form

## Introduction to SPSS – 11<sup>th</sup> October 2017

Forward to: Lisa Pyle, email: [eis-research@uow.edu.au](mailto:eis-research@uow.edu.au) by Monday the 2<sup>nd</sup> October

Participant Information (ALL sections MUST be completed):

Title:	
Given Name:	
Last Name:	
Telephone:	
Email address:	
Student Number (or Uni ID for staff)	
Course if student: eg Masters, Doctorate, PhD	
Faculty	
School	

### Course Cost \$90 (via Uni account) or \$99 (cash or cheque)

I authorise the payment of **\$90** from Uni account number

-----

to the Statistical Consulting Service's account 228 42 1001.6610.

Authorising Signature: \_\_\_\_\_

Name of signatory (printed): \_\_\_\_\_

Unit: \_\_\_\_\_

OR

\$99 payable at 6.102. Sorry we can't accept cash or cheques.
