

Advances in Statistical Methodology: A Symposium to celebrate the career of Professor Ray Chambers

Thursday 6 February 2020

**SMART Building 6, Room 105
University of Wollongong Campus**

To celebrate the career of Professor Ray Chambers a symposium on advances in statistical methodology will be held on Thursday 6 February 2020 at the University of Wollongong.

The symposium will consider some of the important areas of statistical methodology in which Ray has extensive interests. Ray has made extensive and significant contributions in a range of areas, such as Sample Survey Design and Analysis, Robust Statistical Methods, Small Area Estimation, Graphical Methods in Statistics, Computer Intensive Statistical Methods, Statistical Modelling and Inference, Longitudinal Data Analysis, and Analysis of Computer-Linked Data.

Speakers include:

Roberto Benedetti, James Brown, Robert Clark, Alan Dorfmann, Paul Smith, Siu-Ming Tam, Nickos Tzavidis, Suojin Wang, Alan Welsh, and Li Chun Zhang.

External Fee	SSAI Members	Staff and Students of UOW and ASEARC members and Retirees	NIASRA, SMAS and Honorary members
\$450	\$400	\$150	Free

***Registration will include morning and afternoon tea and lunch.
Numbers are strictly limited***
